

ZEPHYR ARCHITECTS

96 Cottage St.

Location

East Boston, MA

Use

Multi Family Residential

Size

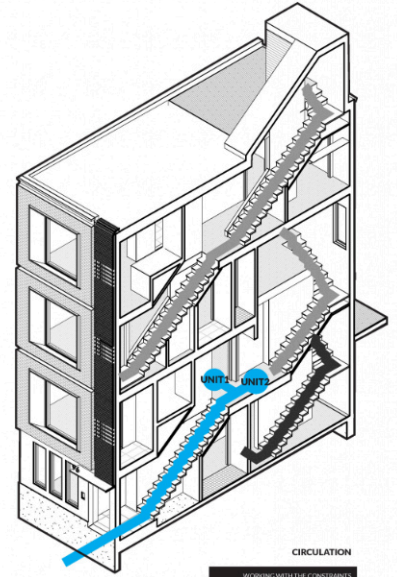

2,450 sq.ft.

Cost

\$674K

Constraints

Narrow Lot

Located in East Boston, the Slender House x2 is a unique multifamily residential project that masterfully utilizes a narrow urban footprint to create light-filled, contemporary living spaces. The design emphasizes verticality and efficiency, incorporating large windows, open layouts, and clean lines to maximize natural light and space within a slim structure. Thoughtful material choices and modern finishes enhance the building's sleek appearance, blending seamlessly with its urban context. This innovative approach showcases how constrained sites can be transformed into functional and stylish urban dwellings.
